

Security System Integration

Criteria 1 Qualifications, Advanced Digital Solutions, LLC.

- a) ADS was founded in 2007 and has already become a leader in advanced system solutions in the large scale commercial, government and gaming markets . ADS has experienced great success with a 100% increase in revenue in 2011 and a 75% increase in 2012. Our extensive experience includes the development, testing, installation, integration and deployment of critically needed technical solutions such as Command and Control Platforms, CCTV, Video, Audio, and Data Analytics, Access Control, Perimeter and Border Intrusion Detection and Deterrent, Biometrics, LPR, Wireless Communications technologies (RF, Microwave, Free Space Optics), as well as Nano and Covert technology solutions.
- b) ADS currently has offices in Kentucky, Indiana, North Carolina, Illinois, California, and Louisiana. We currently support customers in OH, NY, KY, IN, MS, MO, MA, MI, WS, LA, KS, IL, NC, PA, SC, WV, VA, DC, and CA in the US as well as Saudi Arabia, Sudan and Abu Dhabi OCUNUS.

Recent projects (2011-2012) of similar size, scope and/or type include:

- Democratic National Convention (Charlotte)
- Charlotte Department of Transportation
- Hollywood Casino Columbus
- Hollywood Casino Toledo
- Hollywood Casino Kansas City
- Kansas Star Casino
- Kingdom Tower (Saudi Arabia)
- L'Auberge Casino, Baton Rouge
- Old Nation Bank/Indiana Bank and Trust

Security System Integration

c) A major key to ADS's success in handling large scale integrated projects is our commitment to hiring dedicated employees and investing in them through training and certifications to facilitate growth and expertise 2nd to none in the industry. A partial list of industry and manufacturer certifications held within our company that we feel will be of value for this contract include:

- PSP
- RCDD
- PMP
- BISC (Multiple Levels)
- MCSC
- CCNA
- Next Level
- Multiple Access Control Systems
- Axis
- And many more...

We have included a copy of our corporate brochure for additional information about our company as well as some of our projects.
